Work Experience

Sr. Software Engineer | E-Zest Solutions | Feb 2020 - March 2023
- Designed and developed web pages using React, other front-end tools, and Builder.io.
- Collaborated with designers to translate graphical designs into visually appealing and intuitive user interfaces.
- Integrated front-end applications with back-end systems, taking ownership of feature development and testing.
- Participated in task planning, estimation, and tracking for various sprints.
- Engaged in code optimization and conducted code reviews for other developers.
- Managed complete modules from scratch, showcasing a high level of responsibility and ownership.
- Actively participated in daily Scrum calls for status updates and defect reporting.
- Worked as a part of a 40-person Scrum team, both on-site and offsite.
- Added accessibility features to the website, ensuring inclusivity and adherence to web standards.
- Worked directly with internal and external stakeholders, as well as key business leaders, to deliver successful projects.

- Assisted team members in issue resolution and task completion, demonstrating a collaborative approach.

Ui Developer | CNC Web Technologies | Aug 2018 - Feb 2020
- Develop highly interactive UI web applications using HTML5, JS, ES6, CSS3, and Bootstrap.
- Test and validate Web APIs through Postman to ensure robust functionality and performance.
- Customize end user screens with HTML5 and CSS3, resolving browser compatibility issues.
- Create visually appealing interfaces by implementing Presentation Logic with HTML, CSS, and JavaScript.
- Build fully responsive pages using the Bootstrap framework for optimal display across devices.
- Understand and analyze client requirements, designing and developing applications to meet business objectives.
- Identify and resolve issues related to browser compatibility, application functionality, and user experience.
- Collaborate effectively with cross-functional teams and communicate progress, challenges, and solutions.

Web Developer | Indian Magic Eye Pvt. Ltd. | Jul 2015 - Apr 2018
- Responsible front-end web development using WordPress/Drupal for multiple Web and Mobile Sites.
- Collaborated with internal and external stakeholders to deliver HTML5, CSS3, Bootstrap, and JavaScript code.
- Provided front-end development services for A/B experiments to Dr. Purvez Grant, Chief Cardiologist at Ruby Hall Clinic.
- Developed Websites viewability on desktop and mobile sites.
- Created landing pages and blogs for social media campaigning.
- Generated Google Analytics and tag manager code for website traffic and leads.
- Deployed websites on GoDaddy server and ensured successful live implementation
